The Journal learns from the Warden that two convicts contributed to the Industrial School convicts contributed to the Industrial School ten dollars each, out of the amount they had earned by overwork. One of them was told that ten dollars was too much for him to give, and that five dollars would be enough; but he insisted on giving the ten, and was gratified. It is also stated that last year the convicts contributed about a hundred dollars to the same

THE MARIETTA REPUBLICAN .- The last number of this, the Democratic paper of Washington county, announces the retirement of Wm. Scorr, who has ably conducted it over a year and a half, and the return of A. W. McCon MICE to the tripod, who has done good service in that capacity before, as its publisher and editor. Both parties have our best wishes. We hope the Democracy of Washington County will continue to extand to the Republican the large pat ronage of which it is well worthy. Sustained by them as it deserves, the Republican will labor efficiently to retain and increase Democratic ascandency in their county.

HOUSE.

Mr. Burnett asked whether it is or was the purpose of the Republicans under this bill, to reinforce the forts in the seconded States, now held by the Federal Government, and to recapture the forts taken therein, unless they shall be surrendered.

Mr. Curtis replied that his purpose was to support the Constitution as it is until some power shall be vested in him to do otherwise. He has sworn to support the Constitution, and must do so. It may not be necessary to reinforce these forts in the present exasperated state of the public mind. He recognized rebellion and civil war as existing in the South. He would resert to all houorable means to avoid a conflict of arms, and did not believe it would be necessary to move an army there until the people carry their hestilities against the United States.

Mr. Burnett, though not existed with the approximant of

States.

Mr. Burnett, though not satisfied with the answer, said he must ascept it. He saked another question. In executing and enforcing the laws, does the government hold it necessary, in doing so, to reinforce the Southern forts in peasession of the federal government, and to recapture the property? he property?

Mr. Curtis said he was not going to say in open seasio

Mr. Curtis said he was not going to say in open session and in public, what it may be the duty of the country to do. He would only speak of the designs and measures in secret session. If they were for hostile purposes.—
(Mr. Simms, in his seat, said, murder.)
Mr. Curtis, in the course of his reply, said that the murder came from the other side. The acts of assessination were not from the Republicans. The murderous axe against the government was wielded by persons skulking in the Executive Chamber and Senate of the United States, striking their own mother, their mother country.

United States, striking their own mother, their mother country.

Mr. Burnett spoke against the bill, and in favor of the recognition of the fact of the existence of a separate government in the secoded States. In arraigning the Republicans, he said they had rejected all the propositions from the Border States, and to accept less than what they contain would be dishonerable.

Mr. Corwin moved to postpone the bill to Thursday.

Mr. Stanton said such postponement would be fatal to the bill, as the Senate would not have time to act on it. The motion prevalled—100 against 74.

Mr. Bouligny, before voting, said: This is the most outrageous bill ever introduced to Congress. Shame on the man who brought it here!

Mr Grow moved to consider the territorial business.

The Speaker said the report of the committee of Thirty-three had precedence.

Mr. Bingham moved to postpone till Saturday. The yeas and nays were ordered.

Mr. Hickman rose to a question of privilege before the House commenced voting.

Mr. Sickles called him to order.

The latter was called to order by the Republicans.
A scene of confusion ensued, during which Mr. Hickman said he would not be put down by a word from such a mouth as Bickles.

The latter responded—Let the gentleman be put down by the rules of the House. He had called him to order for conduct unbacoming in days.

for conduct unbecoming in debate.
[Calls to order from the Republicans.]
Mr. Adrian said such proceedings were disgraceful.
He loudy called for order.
A colleguy between Messrs. Hickman and Sickles continued smid confusion. The former at last moved to postpone the report of the committee of 33 till Monday.
Rejected—35 against 139.
A protion to postpone till Saturday lost 56, against 109 and that to postpone till Saturday lost 56, against 109 and that to postpone till to morrow 77 against 112.
The report was now before the House.
Mr. Corwin spoke briefly.
Mr. Corwin moved to postpone voting on the first resolution, in order to consider that proposing an amendment to the Constitution. Disagreed to. Adjourned at 80 clock.

SENATE. WARRINGTON, Feb. 27.

Mr. Crittenden presented a number of petitions for the preservation of the Union.

Messrs. Trumbull and Wilson presented petitions against compromise.

Mr. Ten Ryck presented petitions of citizens of New Jersey for the Union, asking amendments to the Consti-tution to prevent the secssion of any state, excep-Bouth Carolina, which shall be allowed to go as often as the chooses.

Mr. Morris, of Illinois, offered a resolution that a select committee on abstracted bonds be and are hereby invested with full power to examine witnesses as to Mim. H. Russell, or any person for him, who has directly or indirectly paid money to any efficer of the United States, or any other person, to assist him in obtaining contracts or allowances from the Government, or assisting him in the transaction of businesses with the same.

Mr. Beanet, suggested an amendment that any person charged shall be so notified, and have a right to examine witnesses. The proceedings shoole not be inquisitorial. Mr. Morris said there has been no inquisition and he would have no objection to the amendment, if time could be allowed for such a course as suggested. The resolution was adopted.

Mr. Sherman, from the Conference committee, reported that the Senate had receded from the clause in the tariff bill, imposing a tax on tea and coffee.

The House then resumed the consideration of the report of the Committee of 33. The first joint resolution vested on was the substitute of Mesers. Burch and Stour, recommending to the several States of the Union, that they, through their respective Degislatures, request Congress to call a Convention of all the States, in accordance with the nith article of the Constitution, in such manner and with regard to such subjects as will more adequately respect the wants, and afford more suff. Sent guarantees is the diversified and growing interests of the Government, and people composing the same. The substitute was rejected, 74 against 109.

Jected, 74 against 109.

Very much confusion prevailed throughout the proceedings, and was it objected that strangers on the flootended to increase the discribe; the Speaker made repeat ed efforts to restore quiet. The first proposition of the Committee was announced with the pending amendments It was a joint resolution declaracy the duty to recognize all constitutional obligations, and recommending such action on the part of the States as will secure these objects, for ects, &c.

Mr. Kilgore moved to lay the pending proposition with the pending amendment, vis: the Crittenden and

M. C. LILLEY BOOK BINDER

Scrofula, or King's F is a constitutional disease, a corruption of blood, by which this fluid becomes vitia weak, and poor. Being in the circulation pervades the whole body, and may burst in disease on any part of it. No organ is from its attacks, nor is there one which it not destroy. The scrofulous raint is various caused by mercurial disease, low living, ordered or unhealthy food, impure air, and filthy habits, the depressing vices, above all, by the venereal infection. We were be its origin, it is hereditary in the estitution, descending "from parents to chile unto the third and fourth generation;" ind it seems to be the rod of Him who says, will visit the iniquities of the fathers up the state of the states of the states.

will visit the iniquities of the their children." their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other discuss; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which deare sent rentered that by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain,

destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleaned it from the system we must removate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla the most effectual remedy which the medical the most electual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enurriva and SEIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUNORS, TETTER and SALT RHEUM, SOALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-RASES, DROPSY, DYSPEPSIA, DESCRIPT, and, indeed, ALL COMPLAINTS ARISING FROM VITIAindeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. McLean's Celebrated Lindment is a certain remedy.

Thomsads of human beings have been saved a life of decrepitude and misery by the use of this invaluable medicine.

McLEAN'S VOLCANIC OIL

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the minamatic poison of Favez and Dadu from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in billious districts, where Favez and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any

tion. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinina or mineral, consequently it produces no quinina or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Authma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bouels, Colie, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cura" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residine in the malarious districts. them all aliace. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into discase. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
